Toolstation Ltd,

Express Park,

Bristol Road,

Bridgwater,

TA6 4RN

**Ref:** Confirmation of Product and Supply Test Certificates Availability

Dear Paul,

We are pleased to confirm that Bridgehead will ensure the availability of all necessary product and supply test certificates prior to the shipment, as we always do as matter of best practice, for the following products:

- Cable;
- Power Bank;
- USB C Plug;
- Car Phone Holder;

These certificates are integral to the testing process and will be provided to ensure compliance with your requirements and applicable regulations. We will never manufacture and supply products to our customers, without the applicable testing and certification in place.

The following documents will be made available:

1. **Material Safety Data Sheet (MSDS)** – Applicable for batteries only, detailing the chemical composition and safety considerations for handling and usage.
2. **Declaration of Conformity (DoC)** – Certifying that the product complies with relevant standards and directives.
3. **ERP Rating (Energy-Related Product Rating)** – Specific to plugs, confirming energy efficiency standards compliance.

We understand the importance of these documents for your processes and compliance requirements. Please let us know if additional documentation or clarifications are required to support your operations further.

Should you have any further questions or need additional information, do not hesitate to contact us.

We look forward to continuing our successful partnership.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Paul McIntosh", with a stylized flourish at the end.

**Paul McIntosh**  
**Managing Director**
