### **Company Information:**

Zircon Corporation designs, develops, manufactures and markets the largest selling line of high-technology electronic hand tools for professional contractors and home improvement enthusiasts.

#### Product Line Up:

1. Stud Center Finders
2. Stud Edge Finders
3. Metal Scanning Tools
4. Leveling Tools
5. Electrical Scanning Tools
6. Water Detectors
7. Drill Guides

### **Approach to Compliance:**

The Approach to compliance used by Zircon Corporation is initially Product/Part based, with a goal to move to Process based by the end of 2021.

These two approaches are according to document “RoHS Enforcement Guidance Document, Version 1 – Issued May 2006.”

### **Data Quality System Overview:**

1. Compliance Documentation. This can be in the form of a self-declaration letter or Test Report, and both documents shall follow defined requirements.

2. Physical technical file:

The technical file, which is comprised of this document, “RoHS Enforcement guidance Document”, and all the self-declaration letters and/or Test reports, is kept physically in the Document Control Center at Zircon de México plant in Ensenada B.C. México.

3. Electronic files:

The electronic files of the technical file are kept in a server at Zircon Corporation office in Campbell CA, USA, and they are accessible through an electronic database.

## Zircon Corporation compliance to RoHS Directive

### 4. Enforcement system:

The documents are controlled with procedures from our internal ISO-9000 based Quality Management System.
