

Pipe Staples

Fixes and secures underfloor heating pipework using staples

Overview

JG Underfloor Pipe Staples are used to quickly and securely fix underfloor heating pipework to insulation. Suitable for screed floor applications, this method of pipe fixing is cost-effective and offers high heat output and response.

The pipe staples are barbed to ensure a secure grip and are easy to install when using a JG Underfloor Staple Gun.

Features & benefits

- Screed pipe fixing system
- Barbed staples secure pipe to insulation
- Ideal for regular and irregular shaped rooms
- Conduit required when pipework runs through adjacent rooms
- Suitable for underfloor heating applications only
