Safety Data Sheet dated 28/7/2015, version 2 SECTION 1: Identification of the substance/mixture and of the company/undertaking
1.1. Product identifier Trade name: ANTI-MOULD FLEXIBLE COLOURED GROUT
1.2. Relevant identified uses of the substance or mixture and uses advised against Recommended use: Ready-mixed cement mortar for ceramic tile joints.
 1.3. Details of the supplier of the safety data sheet Supplier: MAPEI U.K. Ltd - Mapei House Steel Park Road Halesowen - West Midlands B62 8HD Competent person responsible for the safety data sheet: sicurezza@mapei.it
1.4. Emergency telephone number MAPEI U.K. Ltd - phone: +44(0)121 508 6970 fax: +44(0)121 5086 960 www.mapei.co.uk (office hours)
 SECTION 2: Hazards identification 2.1. Classification of the substance or mixture Adverse physicochemical, human health and environmental effects: No other hazards
2.2. Label elements
Symbols: None Hazard Statements: None Precautionary Statements: None Special Provisions: EUH210 Safety data sheet available on request. Contents: octhilinone (ISO); 2-octyl-2H-isothiazol-3-one: May produce an allergic reaction.
The product is not classified as dangerous according to Regulation EC 1272/2008 (CLP). Special provisions according to Annex XVII of REACH and subsequent amendments: None 2.3. Other hazards vPvB Substances: None - PBT Substances: None 6010005ACD2/2

Extinguishing media which must not be used for safety reasons:
None in particular.
5.2. Special hazards arising from the substance or mixture
The product does not present a fire hazard
5.3. Advice for firefighters
Use suitable breathing apparatus .
Collect contaminated fire extinguishing water separately. This must not be discharged into
drains.
Move undamaged containers from immediate hazard area if it can be done safely.
SECTION 6: Accidental release measures
6.1. Personal precautions, protective equipment and emergency procedures
Wear personal protection equipment.
Remove persons to safety.
See protective measures under point 7 and 8.
6.2. Environmental precautions
Do not allow to enter into soil/subsoil. Do not allow to enter into surface water or drains.
Retain contaminated washing water and dispose it.
In case of gas escape or of entry into waterways, soil or drains, inform the responsible
authorities.
Suitable material for taking up: absorbing material, organic, sand
6.3. Methods and material for containment and cleaning up
Rapidly recover the product, wearing protective clothing.
Scoop into containers and seal for disposal.
After the product has been recovered, rinse the area and materials involved with water.
Wash with plenty of water.
6.4. Reference to other sections
See also section 8 and 13
SECTION 7: Handling and storage
7.1. Precautions for safe handling
Avoid contact with skin and eyes and exposure to high dust concentration.
Avoid powder development and deposit
Do not eat or drink while working.
See also section 8 for recommended protective equipment.
Fine dust may form explosive mixture with air. Keep away from open flames, heat and sparks.
Do not remove shrink film in hazardous locations (because of risk of static charging/discharge)
7.2. Conditions for safe storage, including any incompatibilities
Always keep the containers tightly closed.
Incompatible materials:
Keep away from water or from damp surroundings.
Instructions as regards storage premises:
Adequately ventilated premises.
7.3. Specific end use(s)
None in particular

SECTION 13: Disposal considerations
13.1. Waste treatment methods
Recover if possible. In so doing, comply with the local and national regulations currently in force.
91/156/EEC, 91/689/EEC, 94/62/EC and subsequent amendments.
Disposal of hardened product (EC waste code) : 170107
Disposal of not hardened product (EC waste code) : 170107
The suggested European waste code is just based on the composition of the product.
According to the specific process or application field a different waste code may be necessary.
