

BW-PF-T PUSH-FIT CEILING BASE

The ceiling base acts as the universal surface mounting facility for 230V smoke, heat & CO alarms in the SW1, HW1, CW1 series. With both top and side entries to accommodate cable and mini trunking installations, the ceiling base provides spacious room for wiring in premises such as flats where concrete ceilings can be problematic.

- Unique “Push2fit” docking base system for quick installation
- YT2 cable knock-outs
- Screw terminals

Push-Fit Base
