Application Benefits	Longer service life through optimal protection against dirt Higher robustness thanks to outside rubber coating Capacity indicator to control the charging level Long storage with virtually no self-discharge
Marketing text	The new Li-HD technology makes batteries strong and compact: Tightly packed cells allow for less weight and slimmer batteries with the same performance. As part of the Cordless Alliance System (CAS), the 8.0 Ah 18 V battery can be used to operate more than 110 machines from different manufacturers: CAS combines nine tool manufacturers who use the same battery technology.
Application	The Lithium-HD battery pack belongs to the cross-company battery platform CAS. In addition to products by 9 other renowned companies, the new battery technology is used for the press machines ROMAX 4000 and ROMAX compact TT, the inspection camera ROCAM 4 plus and the ROTHENBERGER power tools.
Product	Battery pack 18V, 8Ah for all products of the ROTHENBERGER battery platform.
Numbers needed bonus points	55
