

LED thermostat control

Easy-to-read fuel gauge

Danfoss gear pump for efficient fuel transfer

Remote sensor accurately determines target temperature

Rugged full frame design for added protection

Heavy-duty pneumatic tyres for outstanding mobility

ITEM. 09598

SIP FIREBALL XD350 DIESEL/PARAFFIN SPACE HEATER

WHEEL-MOUNTED GEAR PUMP SPACE HEATER WITH REMOTE TEMPERATURE SENSOR

PRODUCT OVERVIEW

The **SIP FIREBALL XD350 Diesel/Paraffin Space Heater** is a wheel-mounted heater designed to quickly and effectively heat large-sized workshops, garage spaces and warehouse areas.

Featuring an integrated thermostat for regulating heat output and a remote sensor to accurately determine target temperature, the XD350 safely delivers powerful and continuous heating.

FEATURES & BENEFITS

✓ POWERFUL HEATING CAPACITY FOR EFFECTIVE COVERAGE

Maximum output of 350,000BTU/hr (105kW), reaching an approximate area of 2460mtr³ (86,874ft³).

✓ INTEGRATED THERMOSTAT DELIVERS FLEXIBLE TEMPERATURE CONTROL

LED displays indicate room temperature alongside target temperature.

Target temperature is adjustable using an infinitely variable dial.

Once target temperature is reached the heater will switch off, helping to reduce wasted fuel and ensure Energy-related Products (ErP) compliance.

Tethered from the control panel, the additional remote sensor accurately determines target temperature.

The internal safety overheat thermostat prevents damage to the heater.

✓ DURABLE CONSTRUCTION & HEAVY-DUTY COMPONENTS ENSURE LONG PRODUCT LIFE

This includes a heavy-duty Danfoss gear pump, stainless steel combustion chamber and a cast aluminium fuel nozzle holder, which ensures efficient fuel transfer and effective heat distribution.

Power-coated finish for added durability.

External fuel filter provides easy access for maintenance and servicing.

Separate gauges indicate air pump pressure and fuel level.

✓ RUGGED FULL-FRAME DESIGN FOR ADDED PROTECTION

Sturdy steel frame helps to protect the heater against work area damage and aids mobility.

SIP FIREBALL XD350 DIESEL/PARAFFIN SPACE HEATER

OTHER FEATURES

✓ **FITTED WITH HEAVY-DUTY PNEUMATIC TYRES FOR OUTSTANDING MOBILITY**

Ensures full movement on a variety of work area surfaces and is easy to move when not in use.

APPLICATIONS & USES

Ideal for heating large-sized workshops, garage spaces and warehouse areas.

TECHNICAL INFORMATION

ITEM NO.	09598
Input Supply	230v (13A)
Motor Power	550w (0.74hp)
Fuel Type	Diesel / Paraffin / Kerosene
Pump Type	Gear Pump
Max. Heat Output	350,000BTU/hr (105kW)
Approx. Heating Area	2460mtr ³ (86,874ft ³)
Fuel Tank Size	80ltr
Approx. Fuel Consumption	9.5ltr/hr
Net Weight	38.80kg
Gross Weight	41.60kg
Product Dimensions	750(H) x 590(W) x 1155mm(D)
Packaged Dimensions	660(H) x 465(W) x 1220mm(D)
