

DX150TS

6" / 150mm axial extract fan

Toolstation Product Code **42070**

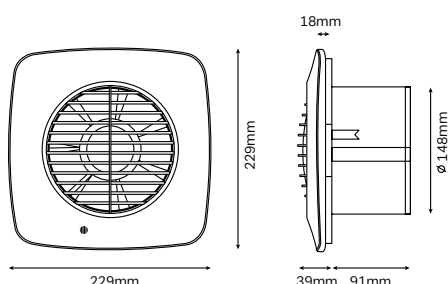

The DX150TS intermittent extract fan is designed for those looking for something conventional, with a modern twist. The fan controls humidity, odours and mould growth effectively in kitchens, utility rooms, larger bathrooms and individual offices.

Suitable for both wall and ceiling fitting, the DX150 range has 2 speeds, selectable at install, and comes complete with backdraught shutters. DX150TS has an overrun timer which can be set at install between 30s and 30 minutes, this means that the fan continues to operate for this time once the external switch (for example a lighting circuit) is turned off.
