WOODWORM KILLER Ready to use (RTU)

Sovereign Woodworm Killer (RTU) is effective against all life stages of wood boring insects.

Description

Sovereign Woodworm Killer (RTU) is based on microemulsion technology, which produces a formulation with a particle size in the nanometre range. This tiny particle size then allows the formulation to penetrate deep into the wood to deliver the active ingredient (an insecticide) to prevent or eradicate wood boring insect attack and prevent re-infestation.

Form Supplied: Ready to use (RTU)

Pack Sizes: 5L Container

Colour Range: Clear

BPR Authorisation

Number: UK-2019-1171-1-0017

Contains: Permethrin 2.5g/L

Properties

Sovereign Woodworm Killer (RTU) is effective against all life stages of wood boring insects (i.e. woodworm). It has virtually no odour and can be applied by either brush or low-pressure spray to provide lasting protection. The formulation is water-based producing a non-flammable, quick drying product containing no volatile organic compounds (VOC's) and is ready to apply direct from the container.

Preparation

Timbers to be treated must be clean and sound and the source of any dampness permanently cured. Timber must be bare, with all surface coatings such as paint and varnish removed. Dust should also be removed, preferably by vacuuming. Cut back severely damaged timber back to sound wood.

Application Rate

Application rate for 1 L of product	Coverage rate per pack
For active infestations of wood boring insect:	
Apply at a rate of 300ml/m ² (1L per 3.3m ²)	16.5 m ² timber surface
For preventative use against infestations of wood boring insect:	
Apply at a rate of 100ml/m ² (1L per 10m ²)	50 m ² timber surface

Drying

Sovereign Woodworm Killer (RTU) is touch dry in 1 hour depending on wood and ambient conditions. Unprotected persons and animals should be kept away from treated surfaces until dry.

Finishes

Sovereign Woodworm Killer (RTU) does not affect the look of the timbers, although will leave a wet look until dry. Sovereign Woodworm Killer (RTU) should be suitable for over coating 24 hours after application depending on wood and ambient conditions.

General Maintenance

Untreated timber should not be allowed to become damp.
For long-term protection treated timber should not be subject to prolonged wetting

Storage:

Store between +5°C and 30°C

Shelf Life:

24 months when stored as directed.

Cleaning

All equipment may be cleaned with water. A full safety data sheet is available on request

Sovereign timber preservatives are being fully supported under the European Biocidal Products Directive

Health & Safety

Irritating to eyes and skin.

Harmful, may cause lung damage if swallowed. Keep away from all potential sources of ignition.

Ensure adequate ventilation and wear suitable clothing. Wash splashes from skin and eyes immediately.
