

**Item:** Toilet Seat Bar Hinge  
**Code:** 4BARHCP / 4BARHBR

## Fitting Instructions

Please read the instructions carefully before fitting the seat.

Place the **Double Hole Washer** onto the **Hinge Plate**, and insert the **Joining Bolts** through the toilet-pan fixing holes.

Place the **Domed Washer**, followed by the seat washer through the **Joining Bolt**, and secure the **Joining Nut**, to the **Joining Bolt**, ensuring a secure final fit to the underside of the toilet-pan. The **Joining Nuts** must be tight otherwise the seat will move around but do not over tighten as this may damage the toilet-pan; after a few days further, tighten the nuts to allow for the compression of **Seat Washers** that would have occurred.
